## **1. Research Goals, Plan and Methodology**

State the specific goals of this study and describe your research plan. Provide a concise description methodology to be used. Relate the research techniques directly to the specific goal(s). Provide a brief description of long term plans for further research on the proposed topic or area of investigation, explain how this will be pursued.

*If you need additional space, continue your text onto the following page.*

## **2. Qualifications**

**What are your qualifications to carry out this study?**

## **3. Facilities**

**What facilities do you have to carry out this study? Please include responsibilities of key personnel pertaining to this study.**

#### 4. Other Funding Sources

What other funds do you have to assist in the completion of this study (e.g., technician support, equipment, etc.)? List all grant applications pertinent to this study that are currently submitted or planned within the next year. If you do have funding that has relevance to or overlaps with this proposal, please explain why you believe grant support is justified.

## 5. References

What previous studies are related to this project?

## 6. Budget

**Itemize all proposed expenditures as follows:**

**a. Personnel**

**b. Equipment** (application of equipment to research objective must be explained clearly)

**c. Supplies** (include cost per individual item)

**d. Other Expenses** (include cost for each)

**e. Total** (indicate total expenditures from a, b, c and d above).

Also provide a brief justification for any item for which the need may not be obvious.

**7. Abstract**

Please provide a brief abstract in layman's terms, suitable for the general public, which may be used by Beauty of Sight Foundation for press releases.
