

## **POSITIONING STATEMENTS**

Beauty of Sight is Florida's oldest and most respected eye bank. It leads in vision care with advanced technology to recover, process, and distribute corneal and scleral tissue, supporting life-changing, sight-restoration surgeries.

With unparalleled dedication to excellence, BOS runs the only ocular pathology lab in South Florida. It serves as a comprehensive center for tissue analysis, patient diagnosis, physician training, and the secure storage of medical data.

Driven by a passion for advancing ophthalmic research, BOS actively supports the future of vision care by providing substantial annual funding to qualified ophthalmic research projects, thereby encouraging breakthrough discoveries. Additionally, our commitment to education and training includes supplying whole-eye tissue for research and physician training, and fostering the development of skilled eye care professionals.

Beauty of Sight's goal extends beyond simple eye banking; we strive to improve vision care and ophthalmology through innovation, compassion, and a dedicated effort to preserve and restore sight.

**Our Promise**  
**Creating a World Without Blindness**
